SUPPLEMENT

1. Feverish construction activity under Russian supervision is reported on railways and roads in Albania. The Russians are repairing the railway lines from Scutari to Lesh (Alessio), from Tirana to Durrës, and from Kavaja to Elbasan, as well as the roads going toward the coast, mainly those toward Valona.
2. As of 4 August 1947, there were squadrons of Russian planes on the airfields in Tirana, Elbasan, Berat, and Delvine.

This document contains information affecting the national defense of the United States within the meaning of the Espionage Act, 50, U.S.C. 31 and 32 as amended. Its transmission or the revelation of its contents in any manner to an unauthorized person is prohibited by law.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
